

# CORE Communities Work Group Meeting

---

## *Meeting Agenda*

May 14, 2021

12:00 noon – 1:30 p.m.

Microsoft Teams

**Host Community:** Durham County

**1. Introductions and Meeting Overview**

*Lindsay Whitson, Community and Economic Development Program Manager, TJCOG*

**2. Welcome**

*Durham County*

**3. 2050 Metropolitan Transportation Plan (MTP) and CommunityViz Scenario Planning in the CORE**

*Kaley Huston, Planner II, TJCOG*

Kaley Huston, Planner II, will provide an overview of the draft future regional planning scenarios based on the CommunityViz land use model, which will be incorporated into the *Connect 2050* joint MTP for the Capital Area and Durham-Chapel Hill-Carrboro MPOs. Scenario planning helps us understand how realistic changes to current trends and adopted plans might influence mobility and access. Ms. Huston will be sharing how these different scenarios can support land use and transportation decisions and align with community values in the CORE region.

**4. Update on Projects for the Capital Area MPO, Durham-Chapel Hill-Carrboro MPO, and GoTriangle**

**5. Civic Conversation: Growth in the CORE Boundaries**

*TJCOG Staff*

TJCOG will facilitate a discussion centered around the different scenarios and how such projections may impact the future of growth, development, and transportation investments in the CORE region. CORE participants will be asked to think “how” projected growth may be best planned for and what step communities are currently taking.

- *What specific road, transit, or bicycle/pedestrian investments do you see as most important for your community, and therefore should be part of one or more scenarios?*

- *If our transportation investment decisions are to align with other things we care about, what are other policy topics or issues that should be front and center in Connect 2050 MTP scenario discussions?*
- *Using the “aspirational model” (endless money and development opportunities), what investments would you prioritize in the CORE region?*
- *What kind of performance measures or key indicators will matter most to you as you compare scenarios?*
- *What else should we be mindful of as we consider long term investments for mobility in the CORE region?*

**6. FY 2022 CORE Workplan**

**7. Community & Organizational Updates**

*Meeting Participants*

**8. Proposed 2021 Meeting Dates (all meetings will be held 12-1:30 pm via Microsoft Teams until further notice)**

- Friday, August 13
- Friday, November 12
